Philosophy

All the Children of the World Academy (ATC) is a Christian school dedicated to the social, emotional and academic growth of all students. We place importance on preparing a rich environment, which allows children to explore and make connections. Our preschool is play-based and incorporates the development of each child's oral language, reading, writing, mathematics, science, health, social studies, and critical thinking skills. Our kindergarten uses age appropriate, integrated thematic instruction

incorporating all areas of the school age curriculum. At ATC, children learn from specialists in the curricular areas of art, music, physical education, foreign language, and library.
